WAIVING OF SEMINAR BACKLOG

For students of the International PhD studies:

1. I waive the obligation to present missed departmental seminars (type "D" only, not those required to be reporting seminars of type "R") from past years of PhD studies that were required to have been said by November 2019. This means that:
 - For students who started in the months March-November, the obligation to present any missed type "D" seminars from earlier years of studies than the student's current year of studies is waived.
 - For students who started in the months December-February the obligation to present any missed type "D" seminars from years of study earlier than the student's last completed year of studies is waived.
2. I waive the obligation to present missed 2nd and 3rd year away symposium presentations (type "A") from past years of PhD studies.

Piotr Deuar
